Old Business:

New Business:

Needham (BRO) brought up an issue that arose at the officials' clinic on Saturday. High school swimming instituted a "no-recall" rule for false starts. If a false start occurs, the swimmers are not stopped. They are allowed to swim their race and the told afterwards that they were disqualified for a false start. This rule will carry down into our league for the 13 and over swimmers only. The 12 and under swimmers are still allowed one false start before being disqualified. therefore they will still be recalled if a false start occurs. However, there is a rule in the official's packet that allows swimmers disqualified for a false start to still swim exhibition and allow the time achieved to be used as a city qualifying time. Dave Lullo put wording together to change the rules so that swimmers who are disqualified for false starts are not allowed to swim as an exhibition swim. Hill (S) motioned to change the wording in the Article VII, par. A.6.d. on page 8 of the rules to state "All legal exhibition swims (i.e. no disqualification), either in an official or an exhibition heat, shall count for purposes of achieving a city qualifying time standard or a pool or team record". Motion was seconded by Cavanaugh (HW). Motion will be voted on at the next meeting.

Adjournment at 8:52 P.M. – Motion by Cavenagh (HW), Seconded by Pattermann (RR).

Next meeting: Monday, June 11th at 7:30pm at NPD Board Room.
